EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Crapenhof on March 29, 2004.

The application has been amended as follows:

In the claims

Claim 19: lines 7, 11-14, 20 and 21, --metal-- has been inserted before each occurrence of "patch".

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach an apparatus and a method for repairing an oil wellbore casing or a pipe having a damaged section using a patch delivery tool comprising a hydraulically activated plunger slidably received in a plunger barrel, the barrel having sufficient depth to receive a patch, the patch positioned proximate and below the plunger, wherein the patch is deployed from the delivery tool by supplying pressurized hydraulic fluid to the hydraulically activated plunger, thereby uncoiling the patch upon deployment and sealing the damaged section of the well casing or of the pipe, these in combination with the rest of the limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
